

Aqua Flume

Aqua Flume Part # GA141212

Aqua Flumes produce (8) thick, clear channels of water.

Aqua Flumes are available in one size only.
(12" in width X 12" nozzle length)

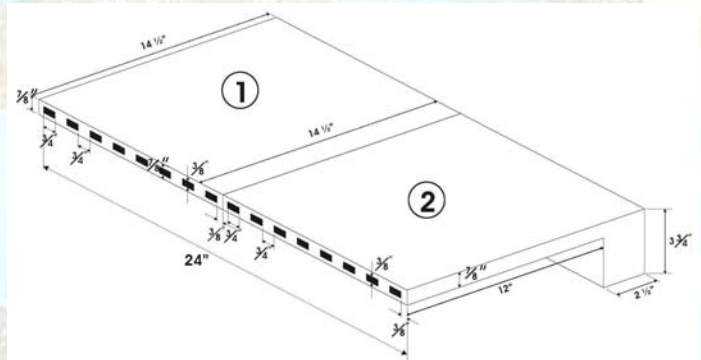

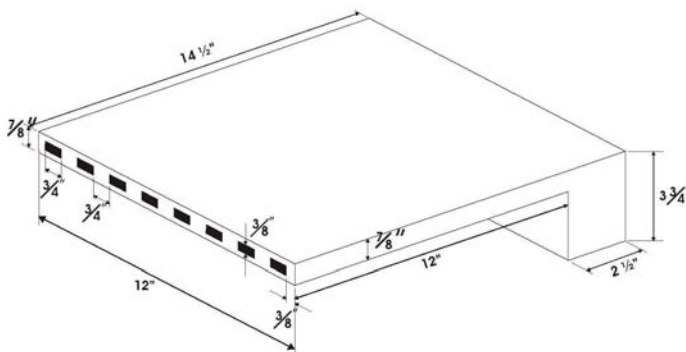

Recommended flow rate from 8 to 18 gpm per unit.
Channel projection may be adjusted to personal taste.

Aqua Flumes can be set individually or side by side in multiples
of 1 ft. wide units to create larger water features.

Aqua Flume Channel spacing provides for a consistent pattern of
water streams when additional units are set side by side.

Colors available are white, tan, gray or
Hammered black, gold, copper, silver and bronze.

See color selection chart on our website.
